WHAT WOULD FRANKLIN SAY?

Little Book He Tried to Suppress Brings \$5,000 at Auction-Only Two Copies Known.

When Benjamin Franklin came to London from Philadelphia in 1724, according to a writer in the Daily Telegraph, he found work as a compositor

While setting up Wollaston's "Religion of Nature" he felt a revolt against some of the arguments, and thereupon wrote his own "Dissertation on Liberty and Necessity, Pleasure and Pain. Moreover, having written it, he printed it himself. He was then nineteen years of age.

In after years Franklin regretted his recocious efforts, and suppressed or destroyed most of the 100 copies of the tract. He did this so thoroughly that only two survivors are known, and one of these came up in the Huth sale at Sotheby's, held recently.

Now for the romance of values. About 1850 the late Mr. Henry Stevens, the well-known bookseller, bought this copy for 50 cents. He offered it to the British museum for \$5. It was refused. He then tried two clients, Mr. Brown and Mr. James Lenox, at \$25. Nothing done.

Throwing it into auction at Puttick's (with a lengthy description) he was rewarded with a bid of \$100, Mr. Hotten beating the belated British museum at that price.

In the Hotten sale, 1872, the British it eventually joined the Huth li-

On went the duel between him and Mr. Stev. shine!" the duel between him and Mr. Stevens. With a big effort the former reached £1,000

"Now Mr. Stevens, guineas?" said Mr. Hodge. "No, £," replied Mr. Stevens, and at the enormous sum of £1,005 the more than sibylline survivor was his, although Mr. Hodge playfully suggested to his rival, "Just beat him by his

family half crown!" Mr. Stevens was especially pleased with his victory, because, as he pointed out, the only other copy of the Franklin relic known as sold by him in the Stevens-Franklin collection to the government of the United States in 1881."

"Konx Ompax." Thomas Jefferson Hogg, the humor ist, once proved beyond a doubt that an old fragment of classic jargon still preserved a certain magical power to often the savage breast.

One day, as he walked near Covent Parden, an Irish laborer fancied Hogg had pushed him, and turned upon the young Oxonian, who was alone, with angry abuse. A number of bystanders quickly gathered to see what promised to be a row.

Hogg turned upon the Irishman. " have put my hand into the hamper, he began, with calm severity; "I have looked upon the sacred barley; I have out of the drum; I have drunk and was well pleased; I have said Konx ompax, and it is finished!"

"Have you, sir?" said the Irishman oroughly mystified and appeased. A woman in the crowd said, "Now, Pat, what have you had?" Others called out, "What is it Paddy has Hogg turned solemnly away, and left the hewildered Irishman to get out of his scrape as best he could. -Youth's Companion.

Eljoseph Robert Raycroft. The Boy Preacher who is assisting in the revival services now in progress at the United Brethern church. Eljoseph has preached or spoken in public over 370 times each year for thirteen years-an average of over one In the Hotten sale, 1872, the British sermon or public address for each museum lost it again at £22 10s. and day for the past 13 years—usually preaches three times on Sunday and sometimes five or six times! Neither he, nor his younger brother and sister, Paul and Grace, who travel with him and sing and heip as personal workers in the meetins—have ever lost an hour's sleep or meal in their life ously called, "Half a crown," and Mr. through pain or sickness; and have Hodge, the auctioneer, courteously accepted it, knowing the motive behind the call. The next bid was the real start, £320 coming from Mr. out in all kinds of weather, nights as

He is without doubt, the greatest Evangelist of his age in the world— past or present, of which there is any

Changing Customs. A writer in the Washington Post tells of an old lady who remembered dining at the White House with Mr. and Mrs. John Quincy Adams. Mr. Adams ate with his fork, and Mrs. Adams apologized for it, saying that he had acquired the habit during his sojourn in France. Mrs. Adams and the other guests used their knives. All this is a comment on changing

manner. But it should be noted that Mr. Adams ate with a four-tined silver fork, while the other guests had only two-tined forks, which then were the ommon kind. Without the develop ment of the fuor-tined fork, the habit of eating with one's knife would not have been so rapidly discarded. As between a four-tined fork and a knife, the fork is to be chosen for convenience's sake, but as between a twotined fork and a knife on many occasions the latter would be actually the

more serviceable Nature Faker. "How's this?" demanded the judge. 'You have your husband arrested for assault, and yet you refuse to testify against him."

Carty, whose heart had softened, "I ain't sure 'twas him done it." "But you stated positively punished you in the eye."

"Thrue for ye. Some one did punch me in th' olye, but I ain't sure who, fur me back was turned at the tolme."

Many There Who Could Do It. "It is said that the devil never takes a vacation." "Well, if he doesn't, it isn't because he can't find anybody to run the place in his absence."-Judge.

"CLUMSY JOHN" WAS CURED writer, used to tell an amusing story How Physical Defects in Avowedly Clever Boy Were Remedied at Last.

> In Woman's Home Companion Mary Heaton Vorse in "The New Freedom for Little Children," says:

Mr. Wood, and remarked: "I want to "I know a headlong boy who was a engage that man for next Christmas in continual trial to his parents. He never ran through a room without up-"Do you think he is funny?" Mr. setting something; he never ate or drank without spilling food and drink "Screamingly funny," returned the lavishly over his clothes. He broke "Then why don't you laugh?" asked his toys. He was always having accidents, and he was continually scolded, "Laugh, when he's got his eyes on of course, for his tiresome ways.

"The continual cry, 'Don't be so clumsy, John,' gave him the nickname of 'Clumsy John.' John was a clever boy intellectually, and it never occurred to his parents that his headlong ways were anything but a defect of character, a sort of 'cussedness' of John's, which, if he would only take thought, he could immediately correct. Then one day his mother began piecing together various facts concerning John's clumsiness, having been led in lands 1507 to 1530, had a very long, this by finding out that John couldn't stiff beard. In Bavaria at the time of skip a rope.

Wolfius there lived a woman with a "What he needed was muscular great long beard. Mile. Bois de Chene, training. FEAR INVASION OF MOTHS Forest Products Carried Between States Are Hereafter to Be

Rigorously Inspected.

No more Christmas trees or Christmas greens or forest products, such as logs, tan bark, posts, poles, shrubs, vines and cuttings, will be allowed to move interstate without inspection from any point in the areas defined by the department of agriculture as infested by the brown-tail moth or the gypsy moth, says the Country

Gentleman. Secretary Houston in a recent quarantine order to this effect, defines certain towns in Maine, Vermont, Massachusetts and Connecticut and all the territory between them and the Atlantic ocean as infested by the brown-tail moth. Similar definitions as to the areas infested by the gypsy moth embrace Maine, New Hampshire, Massachusetts and Rhode Is-

Every interstate shipment of such plants, shrubs or forest products listed in this quanantine order must bear the names and addresses of consigner and consignee, together with a certificate showing that the contents have been duly inspected and found free from moth infestation. This order became effective August 1, 1913, and has been issued by the secretary under authority conferred by the plant quarantine act, approved August 29, 1912.

Mourning for the Dean. In the process of expansion press telegrams often undergo a wonderful transformation. Some years ago the first three horses in the Lincoln handicap were Ob, Dean Swift and Roseate Dawn. A press agency in London wired the result to an Australian paper, as follows: "Lincoln Ob Dean Swift Roseate Dawn."

The sub-editor, who was in charge, had never heard of the Lincoln handicap, and for some time puzzled vainly over the mysterious message. Finally he came to the conclusion that "Ob" must stand for obit, the Latin word expressing a death notice.

He accordingly turned out the lowing paragraph, which duly appeared in print: "We deeply regret to announce the death at Lincoln of the celebrated Dean Swift, the author of that favorite hymn, 'The Roseate Hues of Early Dawn." "-Chambers' Journal

Yuan Shih-K'al's Sons. The three sons of Yuan Shih-k'ai, "the stron - man of China." have been for some time in Paris, whence they will go to London for a stay of five years. They are, it is said, more upto-date than any Celestials who have appeared in Europe, and the eldest, Yuan Ke Chuan, is a choice copy in dress of the true Parisian. In fact, except for a full-face view, no one would take this slim built, elegant youth for a Chinese. He wore a smartly tailored suit of light gray cashmere, in a sober check pattern. and above his tan shoes, with their broad bows, were to be seen some vividly purple socks. A fawn scarf was round his stand-up collar, and he wore a little silver watch on his wrist. next upon four bank books, showing One of his brothers, Yuan Ke Huan, is like himself, fifteen years old, and the other, Yuan Ke Chi is thirteen.

don Chronicle.

A remarkable new method of testing absolutely whether a person is really dead and thus avoiding the possibility of premature burial, just announced by Doctor Icard, of Marsellles, has been received with great interest by his colleagues in Paris.

In Body.

Doctor Icard's system depends on the question whether the blood is still in circlustion or not, and consists of a subcutaneous injection of a small quantity of fluoresein, which is quite harmless, but one of the most violent coloring matters known.

If there be the slightest motion of the blood the fluoresein, carried around the body, staines it a vivid golden yellow, while the eyes become a deep emerald green. If, on the other hand, there is no movement of the blood the coloring matter is not dispersed, and produces no effect. Half an hour is stated to be enough to make this test. The laity, while duly impressed by this neat method, are asking whether persons who are alive and undergo the dyeing process, and who later recover, will lose the golden yellow tint and the green eyes, which, as Doctor Icard describes them, "are transformed into superb emeralds, set like jewels in their sockets."

It may be added, however, that fluoresein is one of the most transitory dyes known.

Barbara Frietchie Was a Real Personage.

All believers in Barbara Frietchie is that all this sustained sentiment came from the fact that a woman waved her flag to what she supposed were Union troops, and continued to wave it when she discovered they

were not. But it is a relief to know positively that she waved her flag at any one, for a belief of fifty years is hard to shake. And wave it Barbara did, says Mrs. Mott, who reports the details in the Baltimore American. A soldier in Washington, who was in the Third brigade, saw it done. Moreover, Mrs. Abbott of Frederick, heard the story from her mother, Barbara's niece, to whom Mrs. Frietchie told the tale as

soon as it had happened. Even those who question the pretty incident cannot doubt that Barbara Frietchie at least lived—if they do doubt, let them go to Frederick, and see what Mrs. Abbott has. She has the blue china coffee pot which was used for General Washington's refreshment when he passed through Frederick will double the profit on the late fellows, so get in line and get your share of the big profits.

Don't depend on a cranky hen—go at it right and get a Buckeye Incubator. You can start the incubator now—just when you are ready—but you cannot ment when he passed through Frederick in 1791; the long chamois gloves which Barbara Frietchie wore when she pruned her roses; the silk mitts which she knitted for herself; a nutcracker in a leather case; her teacups; a little glass smelling-bottle, with which, it is said, she used to keep herself wakeful in long sermons, and many other things.

There is a Barbara Frietchie association now, founded over a year ago. Its members are both men and women, and they live all over the United States. It was due to this society that the body of Mrs. Frietchie was reinterred last Memorial day, in Frederick.

Concerning the Memory. Ways of the memory in later life exercised the famous Dr. Jowett of Oxford when he reached it, but he found consolation. "At fifty-five you fail to remember things-words, pictures, persons-after six months' or a year's interval. Yet the circle of objects which you recognize is ever bec wider, and this power of recognit is a great gift if cultivated. There is the greatest value in 'forgotten knowledge.' Instead of the stores of memory oppressing you, with a little trouble you can recall all that is useful or necessary." And to Lady Wemyss, recovering from illness, he wrote: "Like you, I read a book through and do not remember a word of it. I think, however that the reading of the book has an effect, and if I read it again I understand it better. I believe that as we lose our powers of memory we

Bees Starved to Death. Thousands of German emigrants died of starvation in Holland this summer, whither they had gone in search of food. The victims were not persons, however, but bees, of which the beekeepers of Westphalia and the Rhine districts take thousands of hives across the frontier every summer to the great peel heath, which in summer is covered with masses of wild flowers. Special trains are employed to facilitate the transit of the honey-makers. This year, however, NOT A FICTION OF HISTORY and many of the bees starved, so that honey will be scarce and dear in the flowers bloomed later than usual
